

HEALTH ADVISORY

Health Advisory for Delegates Attending the 2026 Financing Agri-Food Systems Sustainably (FINAS) Summit

Nairobi, Kenya

30th June – 2nd July 2026

Advance Badge Collection: 29 June 2026

Event	3rd FINAS Summit — Financing Agri-Food Systems Sustainably
Dates	30 June – 2 July 2026 (Advance Badge Collection: 29 June 2026)
Location	Nairobi, Kenya

The FINAS-2026 Secretariat and Partners warmly welcome all delegates attending the 3rd FINAS Summit in Nairobi, Kenya. The wellbeing of all delegates remains a priority. Delegates travelling to Kenya are encouraged to review current travel health guidance from their home country of origin and the World Health Organisation guidelines to ensure they are appropriately prepared before departure.

This advisory provides important public health information to help ensure a safe and healthy stay during your visit.

Pre-Travel Health Protection Considerations

Delegates are advised to:

- Ensure they provide valid proof of yellow fever vaccination if they are attending from countries with risk of yellow fever transmission. Vaccination must be undertaken at least 10 days prior to arrival in Kenya and is valid for life.

** The list of yellow fever endemic countries is provided in Annex 1 below.*

- Take note that Kenya is classified as being at risk of yellow fever transmission; all delegates are encouraged to undertake vaccination for yellow fever.
- Consider routine vaccination depending on individual risk factors.
- Carry an adequate supply of prescription medications in their original packaging.
- Obtain comprehensive travel and medical insurance that includes emergency medical care, medical evacuation and coverage for unexpected travel disruptions.
- Pack alcohol-based hand sanitizer, insect repellent and sunscreen.
- Carry copies of important medical information and emergency contacts.
- Immediately report any illness, discomfort or symptoms of fever, respiratory illness, or other communicable conditions to the medical personnel at the venue.
- Observe standard public health precautions and monitor official travel advisories issued by their home country and Kenyan health authorities prior to travel.

Ebola Virus Disease Advisory

Current Status

An outbreak of Ebola Virus Disease (EVD) has been reported in the Democratic Republic of Congo (DRC) and the Republic of Uganda. EVD is a severe viral illness transmitted through direct contact with the blood, body fluids, tissues, or contaminated materials of an infected person or animal. DRC carries the greater disease burden with 452 cases and 82 deaths confirmed as at 6 June 2026. As of the same date, Uganda has confirmed 19 cases and 2 deaths.

Kenya has not reported any case of EVD. The country is in a state of readiness considering our proximity and interconnectivity with the affected countries. Surveillance measures have been enhanced at our airports and other points of entry.

EVD Surveillance at Points of Entry

The following measures are being implemented at all formal Points of Entry (POEs) including Jomo Kenyatta International Airport (JKIA) in Nairobi and Moi International Airport (MIA) in Mombasa, through which the majority of delegates are expected to arrive:

- Flights from DRC and Uganda landing at JKIA shall be processed through Gate 16 for ease of screening.
- Considering the high risk of EVD within the region, delegates from the following countries shall also undergo enhanced screening: South Sudan, Tanzania, Ethiopia, Rwanda, Burundi, Somalia, Central African Republic, Congo, Angola and Zambia.
- Delegates originating from or transiting through DRC, Uganda or any other country reporting the outbreak shall undergo screening for elevated temperature ($\geq 38^{\circ}\text{C}$) as well as signs and symptoms compatible with EVD.
- All delegates shall observe routine hand hygiene practices including regular handwashing and use of alcohol-based sanitizers upon arrival at the POE and during their stay in Kenya.
- Health messaging shall be provided at the POE on EVD signs and symptoms, modes of transmission, prevention measures and who to notify in the event of suspected illness.

Health Care Provision at the FINAS Summit

Temperature screening of delegates shall be conducted using thermoguns during the Summit. Additional handwashing stations shall be provided at the Summit venue and delegates are reminded to observe frequent hand hygiene practices. Routine use of alcohol-based hand sanitizers is also strongly recommended. Delegates should use face masks when experiencing symptoms of respiratory illness.

Health teams will be situated in proximity to the Summit rooms during sessions for quick response to emergency cases. Standby ambulances shall be available to refer delegates who require further medical attention to select hospitals including Kenyatta National Hospital, Kenyatta University Teaching and Referral Hospital, Aga Khan Hospital, among others. Each delegate will be expected to meet their own treatment or hospitalization costs – as applicable.

⚠ Watch for EVD Signs and Symptoms

Any delegate reporting the following symptoms should immediately notify the medical team stationed at the Summit facility:

Sudden fever • Severe headache • Muscle and joint pain • Weakness and fatigue • Sore throat • Vomiting • Diarrhoea • Abdominal pain • Unexplained bleeding or bruising

Regular public health updates shall be provided to the delegates during the Summit.

The FINAS Secretariat, Government of Kenya and Partners wish all delegates a productive Summit and a safe stay in Nairobi.

Annex 1: Countries Requiring Proof of Yellow Fever Vaccination for Entry into Kenya

1. Angola	2. Argentina	3. Benin
4. Bolivia	5. Brazil	6. Burkina Faso
7. Burundi	8. Cameroon	9. Central African Republic
10. Chad	11. Colombia	12. Congo
13. Ivory Coast	14. Democratic Republic of Congo	15. Ecuador
16. Equatorial Guinea	17. Ethiopia	18. French Guiana
19. Gabon	20. Gambia	21. Ghana
22. Guinea	23. Guinea-Bissau	24. Guyana
25. Liberia	26. Mali	27. Mauritania
28. Niger	29. Nigeria	30. Panama
31. Paraguay	32. Peru	33. Senegal
34. Sierra Leone	35. South Sudan	36. Sudan
37. Suriname	38. Togo	39. Trinidad and Tobago
40. Uganda	41. Venezuela
